Service Manual

AC/Battery Mini Cassette Recorder with Auto-Stop Mechanism

Mini Cassette

RQ-342

(Brown)

Please use this manual together with the service manual for model No. RQ-342 (Original) order No. GAD84055421C3.

This is the Service Manual for the following areas.

Z ...For all European areas except United Kingdom.

E...For United Kingdom.

Specifications

Power requirement: AC; with optional Panasonic AC Adaptor RP-31

PARTS COMPARISON TABLE:

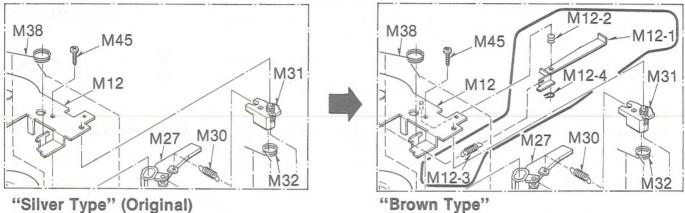

Please revise the original parts list in the Service Manual (RQ-342) to conform to the changes shown herein. If new part numbers are shown, be sure to use them when ordering parts.

AC/Battery Mini Cassette Recorder with Auto-Stop Mechanism

Mini Cassette

(Silver)

This is the Service Manual for the following areas.

> .. For Asia, Latin America, Middle East and Africa areas.

.. For Australia.

Specifications

Power requirement:

Battery; 3V (two UM-3, R6 size dry batteries)

X...AC; with optional AC adaptor RP-34

Motor:

Jacks:

Electric governor motor 300 mW...RMS (max.)

Frequency response:

200~7,000 Hz

Tape speed:

4.8cm/s

Track system:

Power output:

2-track monaural recording and playback Fast forward and rewind time: Approx. 145 seconds with C-60 cassette tape

Mic; sensitivity 0.25mV/applicable microphone impedance

 $200\Omega\sim600\Omega$

DC in; 3V

Monitor; 8Ω

Speaker:

4.5cm PM dynamic speaker

Dimensions:

91.5mm(W)×135.5mm(H)×37mm(D)

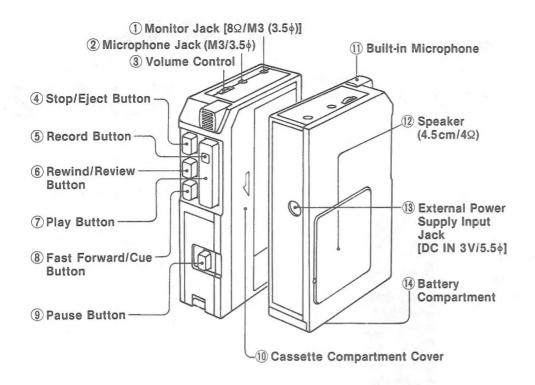

Weight:

340g, without batteries

Design and specifications are subject to change without notice.

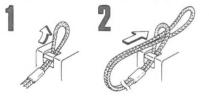

LOCATION OF CONTROLS AND COMPONENTS

Automatic Stop

When the tape comes to its end during playback (or recording), the tape stops moving automatically, the Play (and Record) Button returns to its original position, and the power source is turned off.

TO ATTACH HANDSTRAP

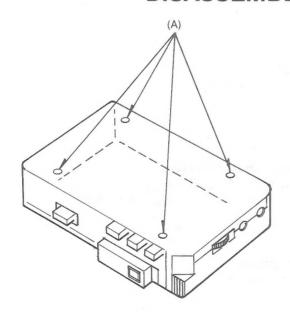

■ Cue and Review

If, during tape playback, the Fast Forward/Cue Button (or the Rewind/Review Button) is partially pressed, the tape will be moved rapidly forward (or rewound) and the tape sound can be heard (although garbled) from the speaker as long as the button is partially pressed. When the button is pushed further, the playback sound may no longer be heard.

NOTES:

MEASUREMENTS AND ADJUSTMENTS

ALIGNMENT INSTRUCTION

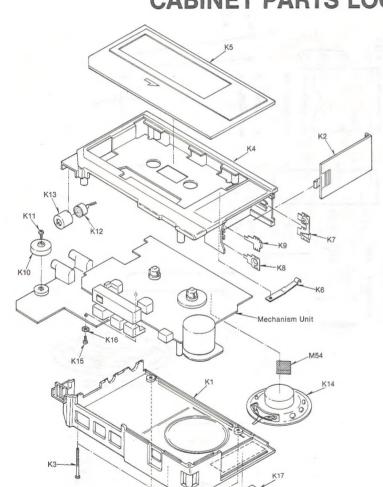

READ CAREFULLY BEFORE ATTEMPTING ALIGNMENT

- 1. Make sure heads are clean.
- 4. Set volume control to maximum. 2. Make sure capstan and pressure roller are clean.
- 3. Judgeable room temperature: 20±5°C (68±9°F)

ADJUSTMENT

ITEM	INPUT	MEASUREMENT POINT	SPECIFICATION	ADJUSTMENT POINT	REMARKS
Head azimuth	QZZCFM (8kHz, -20dB)	Monitor jack (8Ω)	Maximum output	Head adjustment screw	
Tape speed	QZZCWAT	Monitor jack (8Ω)	3000±90Hz	VR2	(1) Playback the test tape. (2) Adjust VR2 to obtain counter readings within specified tolerances.

Service Notes for the Supply Reel Table (M67) and Reel Table -

The supply reel table and reel table gear-L sandwiches the main base plate as shown in Figure A. When replacing them, pull hard on the part(s) to be replaced.

When assembling, refer to Figure A, and push the supply reel table and reel table gear-L with your fingers. Assemble so that the distance from the main base plate to the top of the supply reel table is 12.0mm when the supply reel
